ELLA O. FULLER, Dist. Clerk

Superintendent's Report

To the School Board and the Citizens of the School District of Pittsburg:

Introduction

A year ago at this time the attention of many of us was focused upon the devlopments taking place in the General Court which had to do with education. On the one side was the possible passage of several proposed measures which was going to affect quite markedly the administration of our schools as well as substantially increase the cost of their operation. On the other side was the possible relief, to some extent, of the tax burden on the property owner through increasing by some means the financial support to the local school districts from the state level.

With the legislative session now over, an examination of the action taken by our lawmakers reveals that education fared suprisingly well. Such provisions as increasing the borrowing capacity to finance urgently needed building programs to provide for larger enrollments, and for help from the State in retirement of the bonds issued for this purpose, will be of great assistance in meeting mounting constructional costs. And the increase in the amount of funds made available from the state level for general aid

to the local districts, also, together with the greatly improved formula used in determining their distribution, is going to help very materially in maintaining high educational standards.

Teachers

With the continued teacher shortage becoming more acute yearly, we are indeed fortunate to have tive experienced teachers return to work with us again this year. Five new teachers have been employed. Mr. Frank W. Jones, the Prinicpal, who received his training at Buffalo Teachers College, Columbia University and the University of Rochester, all in New York, and who served also in the Navy during the past war, his had several years of administrative experience previous to coming to Pittsburg. Miss Lucy E. Mosher who completed her undergraduate work at Farmington Teachers College in Maine last June, and Hilton F. Mears who received his training at Bridgewater Teachers College in Massachusetts. have been employed to fill the vacancies in Home Economics and Shop respectively. Mrs. Mae F. Thibeault, a graduate of Plymouth Teachers College, and who has had several years of experience, has been employed, also, on a part time basis to alleviate the teacher load in the upper six grades, brought about by including additional subjects in the program of studies. Mrs. Junie S. Aldrich, a veteran teacher well known in this area and who received her training at Plymouth Teachers College, filled the vacancy in the intermediate grades.

The teachers in Grades 7 - 12 with respective subjects taught are: Principal, Frank W. Jones—Plane Geometry, Physics, and World History; Helen Barclay—English and French; Hilton F. Mears—Shop and Junior High Mathematics; Lucy E. Mosher—Home Economics; also operates School Lunch Program; Raymond C. Smith-Biology, Social Studies and Athletics; Mae F. Thibeault—English, General Science and Social Studies. Teachers in the first six grades are Eva S. Scott, Grades 1 - 2; Junie S. Aldrich, Grades 3 - 4; and Doris G. Fissette, Grades 5 - 6.

School Nurse -- Health

With the additional services being rendered each suuccessive year to help pupils more efficiently maintain that state of good health so essential to a happy and successful overall school life, the magnitude and importance of the work done by our school nurse. Mrs. Ethel Sturgis, becomes more and more apparent. As is known, polio immunizations have been given to the primary grades and are now available to all children, ages 1 - 15 inclusive; as well as for pregnant mothers, at school clinics. Arrangements have been made, also, to give a complete physical examination to every pupil every four years in addition to the one now received at the pre-school clinics. With the fine response received from parents and pupils to the advantages of the dental clinic conducted over a period of many years at Dr. Dickson's, it is regrettable that due to the increased cost with the change in offices it seemed best to discontinue this important work. It is hoped very much that something may be worked out whereby this valuable service may be resumed.

Enrollment and Attendance

For the third successive year the total enrollment is larger than it was the previous year. Although it dropped off in Grades 1 - 8, the increase in Gades 0 - 12 more than compensated for the decrease in the elementary grades. A comparison of the n mber of pupils enrolled in the elementary and high school groups for this three year period shows respective counts of 87 and 49 for this year. 95 and 40 for last year, and 89 and 31 for the previors year. The number of high school tuition pupils from Clarksville, also, shows an increase for these past three years, as 7 are enrolled for the current year as compared to 3 each for the two years. One elementary tuition pupil, also, is enrolled from this same district. The average precentage of attendance for the past year was 95.78 in Grades 1 - 6: 96.61 in Grades 7 - 8; and 95.64 in Grades 9 -12. The average number of tardinesses per pupil for

the same groups was .02, .33, and .52 respectively. This excellent attendance record and small number of tardinesses is commendable.

Notes on the Budget

The Budget of the School Board for 1956-57 is \$67.0:6.00, of which \$53.621.00 is for operational expenses and \$13,465.00 for principal and interest payments on the bond and serial note issues to finance the construction and equipment of the new school building. The budget for the current year is \$62,633.00, of which \$48,898.00 and \$13,735.00 are for operating cost and bond and serial note issue obligations respectively. With no state aid anticipated under the new formula, the estimated income is confined to a possible \$1,500.00 from tuition, which leaves a balance of \$65,586.00 to be raised by taxes by the town. The increase in the budget over that of the current year is explained, for the most part, by the provision for employing an additional teacher, salary advancements, and anticipated greater costs of transportation and retirement.

Buildings and Equipment

Outside of relining the firebox in the boiler with new fire brick, repairs made during the past year have been minor in nature. Two appreciable improvements, however, have been made. The installation of a septic tank in the sewer system provides greater sanitation protection to the health of the school as well as of the community, and the replacement of the small porcelain sink, formerly used for dishwashing, with a new large stainless steel one is of material help in the operation of the School Lunch Program.

New item sof equipment added include new chair and desk units to accommodate the larger classes in Science in the Laboratory, a small portable sander for use in the Shop, several pieces of electrical apparatus needed for instruction in Physics, and a potato peeler for the kitchen. Incidentally, it should be

noted that the latter machine was furnished by the School Lunch Program with no expense to the district.

Miscellaneous

During the past year the Pittsburg School Band has contributed much to the overall life and enjoyment of the school and community through the fine musical programs presented at the various functions and occasions. As has been stated previously, much credit is due the parents for supporting this organization, and to Lynwood S. Peck for his willingness to come to Pittsburg to do the instructing.

The imoprtance of the School Lunch Program is indicated by the increasing number of pupils taking advantage of the hot balanced meals, which contribute very materially to the overall good health and morale of the school.

Conclusion

May I again express my deep appreciation to the members of the School Board, parents, teachers, and citizens for all the help and co-operation received in our work together to provide good schools.

Respectfully submitted,

ERNEST B. DANA

Superintendent of Schools

*—The starred items are required by law to be raised and determined by the proper authorities. The salaries of the district officers are determined by the district. A relationship, which takes into consideration school membership and assessed valuation, determines the proportionate share of the salaries paid for each district for personnel employed by the supervisory union. The State Treasurer reports the amount of the per capita tax. The Retirement Board assesses the amount for Teachers' Retirement.
